Celine Dion Edition

Congratulations on purchasing the new '**Celine Dion Edition**' software. This new software provides Total Presets for ten of Celine Dions most famous ballad songs.

The new registrations contained within this software do not require any additional Sound Activations. Only factory sounds are required. They have been tweaked and manipulated using Sound Control, Expression Control and Selector Settings to provide a beautiful orchestral setting for Celine Dion song titles.

WERSI Direct are pleased to present the first title in the new Registration Software series. IMPORTANT! This software only works with the OAS 7 software R7.31 upwards. You must burn these registrations to CD or copy to USB device. Contact WERSI Direct Ltd if you require a free OAS 7 software upgrade.
