

# Elton John Edition

## Elton John Edition

Congratulations on purchasing the new '**Elton John Edition**' software. This new software has been created and programmed by the WERSI professionals in Windsor, England, the home of Elton John.

We've created some great Total Presets for you and also included Style and Tempo suggestions for customers with just the normal Style Editor & OpenArt-Arranger as well as customers who also have the Styles 2011 Activation (the new Styles).

IMPORTANT! This software only works with the OAS 7 software R7.42 upwards. You must burn these registrations to CD or copy to USB device. Contact WERSI Direct Ltd if you require a free OAS 7 software upgrade.
