Movie Producer

Volume 1

For all OAS 7 Instruments

Movie Producer Vol.1

Congratulations on purchasing the new '**Movie Producer Vol.1**' software. This new software is truly a marvel in sound and combination.

The sound of the Movie Score and magical scores capture the heart and mind. Memories from years gone by to the latest blockbusters are unlocked when you play the sounds of this new software on your OAS 7 instrument.

The WERSI OpenArt-System is the only instrument in the world that is capable of producing these incredible sounds.

WERSI Direct are pleased to present the first title in the new Movie Producer Registration Software series. **IMPORTANT!** This software only works with the OAS 7 software R7.31 upwards. You must burn these registrations to CD or copy to USB device. Contact WERSI Direct Ltd if you require a free OAS 7 software upgrade.

Loading Instructions

Loading from CD/DVD.

1. Insert your CD/DVD or USB device into the CD/DVD or USB drive.
2. Press the 'Settings' tab at the top right corner of the Main Display.
3. Press the 'OAS Database' Button in the central column of buttons.
4. A new small window will appear. Press the button marked 'Total Preset Manager' at the bottom of the centre of the new window.
5. The Total Manager will now be displayed.
6. Press the 'Import' button.
7. Select the 'Drive' that is your instruments CD/DVD or USB drive.
8. Once you have selected your CD/DVD or USB drive, navigate to the folder that your new software is stored within. Select it. The 40 Registration Total Presets will be displayed. Press the 'Select All' button.

(Create A User Group - to save your new Movie Producer Vol.1 Total Presets, you may wish to create a new User Group. Press the 'New Group' button and input the name 'Movie Producer Vol.1' as the name or something similar on the virtual typewriter. Press the 'Enter' button).

9. Now that the Total Presets are highlighted in Red, press the 'Load' button.
10. A new window will be displayed. Please select a free slot to save the 40 Total Preset Registrations and press 'Save'. Please be aware that any Presets that currently occupy any of the slots that you select, will be overwritten. Please take care to select only free / vacant slots.

Registration Recall

38. **Zimmer Strings 1**
39. **Zimmer Strings 2**
40. **Zimmer Strings 3**

Playing with Expression...

The new presets have been setup to contain only the most beautiful sounds. Often we overlook the stunning Orchestral and Vocal sounds within the OAS Factory Sound Library. By using the Sound Control, the sounds can be edited to a more natural timbre and then intermixed with each other for a natural sound.

Further more, we can impress upon the dynamics of the OpenArt-System. Changing of the manuals dynamics is a possibility and so naturally is the varying of the overall volume of Upper, Lower, Solo Manuals and Pedal Boards. The fore mentioned features obviously are helpful, and often produced the desired results. However, the OpenArt-System offers something further to really help produce the weaving and expressive dynamics of natural Orchestra / Solo and Vocal sounds.

The Expression Control can be found under the following menus:

1. Press the 'Selectors' tab at the top of the Main Screen.
2. Press the 'Advanced' Button near the top of the Selectors screen.
3. Now you will see a page that features the 'Expression' parameter boxes listed. You can set the value between -100 & 100 (200% variables).
4. Experiment further by changing the values to create new and fantastic Expression presets of your own.
