COOL! SWEET! & LIVE! for OpenArt-System.

Congratulations on purchasing the new Cool! Sweet! & Live! Software for your OAS 7 instrument. You'll be pleased to know that this is a new innovative software designed for Live Playing!

Often, we want a sweet sound, a cool sound to play live... just on the fly, but also to sound good! This software presents a range of solo instruments, pianos and orchestral ensembles that do just that! The sounds that are designated 'SWEET!' have a soft and charismatic sound to them... perfect for melodies. The sounds that are designated 'Cool!' have a unique sound to them and again sound great with live playing. Finally, the sounds designated with 'LIVE!' are for just that - playing live out of the box. No thinking about how to play the sound (like a soloist) etc... just play and you'll sound great!

IMPORTANT! This software only works with the OAS 7 software R7.42 upwards. You must burn these registrations to CD or copy to USB device. Contact WERSI Direct Ltd if you require a free OAS 7 software upgrade.
